### DETAILED ACTION

1. Applicant's amendment, filed 09/28/07 is acknowledged.

Claims 68 – 106 are pending.

#### *Restriction*

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted:

I. Claims 68 - 81 are drawn to a enriched population of mesenchymal precursor cells, wherein at least 1% of said cells are STRO-1<sup>bri</sup>.

II. Claims 82-95 are drawn to differentiated progeny cell, wherein said progeny cell is selected from the group recited in claim 82.

III. Claims 96-106 are drawn to a method of enriching for mesenchymal precursor cells.

3. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

As was also found in the International Search Report, the Invention of Group I was found to have no special technical feature that defined the contribution over the prior art of WO 2001/004268 (IDS).

Application/Control Number:  
10/551,162  
Art Unit: 1644

Page 3

WO 2001/004268 teaches an enriched population of mesenchymal precursor cells, wherein at least 1% of said cells are STRO-1<sup>bri</sup>.

Since Applicant's Inventions do not contribute a special technical feature when viewed over the prior art they do not have a single general inventive concept and so lack unity of invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michail Belyavskiy whose telephone number is 571/ 272-0840. The examiner can normally be reached Monday through Friday from 9:00 AM to 5:30 PM. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on 571/ 272-0841.

The fax number for the organization where this application or proceeding is assigned is 703-872-9306.
